Biography

Professor Dr med Ralf Baron is Head of the Division of Neurological Pain Research and Therapy and Vice Chair of the Department of Neurology, Christian-Albrechts-Universitaet Kiel, in Germany. From 1999-2004, he served as General Secretary of the German Interdisciplinary Pain Society (DIVS), since 2005 he serves as a Management Committee Member of the Neuropathic Pain Special Interest Group (NeuPSIG) of the International Association for the Study of Pain (IASP) and from 2008-2010 as a board member of the Deutsche Schmerzgesellschaft. He has been a Councilor of the International Association for the Study of Pain (IASP) since 2010.

His main research interest is the pathophysiology and therapy of neuropathic pain states. He has intensive scientific collaborations with several researchers worldwide, e.g., Professor HL Fields, San Francisco, USA, and Professor TS Jensen, Aarhus, Denmark.

Professor Baron is associate editor and reviewer for many scientific journals (Advisory Board Member for *Nature Reviews Neurology* 2005-present, Associate Editor for *Pain* 2003-present, and the *European Journal of Pain* 2006-2012). He has been the recipient of the German Pain Award, the Heinrich-Pette-Award of the German Neurological Society and the Sertürner-Award. In 1998

he was awarded a Feodor Lynen fellowship by the German Humboldt Foundation and was visiting professor at the Department of Neurology, University of California, San Francisco.

Professor Baron has authored more than 200 publications with his outstanding and motivated research team, and has lectured at numerous conferences and symposia worldwide.
